## NIGHTBOOKS (2021)

It pays to have a good imagination, right? In *Nightbooks*, a young boy is ostracized for his love of creating scary stories. Then, he gets abducted by a witch who demands he tell a new scary story every night if he wants to stay alive. As he spins his yarns, he plots an escape with another prisoner. (This one might be better for tweens, and let the real little ones skip it.)

## CRUELLEA (2021)

*Cruella* isn't specifically a Halloween movie, and it isn't frightening in a goblins, ghouls or witches sense. But it has that Halloweeny goth vibe (mixed with some cool punk fashions). And in delving into the events that turned Estrella into Cruella, some horrifying things happen, explaining how she became one of the all-time great Disney villains.
